

18/12/20

Dear Families,

Christmas Greetings. As we are heading towards the year end, we the Summerville family would like to thank all the resident's families for their wonderful cooperation through this extremely tough year. We admire your patience and support during the pandemic. It is very unfortunate that we have to restrict ourselves for many occasions.

As we all know the visiting guidelines are related to the number of Covid_19 cases. Unfortunately, the numbers are increasing. At this stage we highly discourage sending residents out of the nursing home.

We have organised Christmas week for Residents in the home starting on Monday 21st. The events are scheduled in the afternoons, and mornings are dedicated to visits for family and friends. We have organised two booths each side of the Nursing Home so that we could accommodate two resident's family members at the same time.

As per the Infection control guidelines, all visits to the Nursing Home during the Christmas week need to be scheduled to avoid the increase in the number of people around the Nursing Home. We will be available to schedule the visits on Monday December 21st between 10am and 2pm. The Contact number is 0899897274.

Thank you,

Summerville Healthcare.
